B Bootstrap	CSS		Vercel

PROJECTS

Aspire Systems :

I-Estate Property Management System (01/09/2020 - Present) :- I-Estate is a real estate related product which is used to lease, sale and generate reports of the properties based on the availability, product is developed based on Angular and Java technologies, I am responsible to develop the screens of the Sales and Reports Module and integrate them.

GODB Tech :

Medicare :- The Medical Insurance Management System is aimed at providing a robust platform for managing medical insurance policies, claims, and related processes. It ensures seamless interaction between policyholders, healthcare providers, and insurance administrators.

Personal All Risk (PAR) :- insurance is a specialized insurance policy designed to protect valuable personal possessions that may not be adequately covered by standard homeowners or renters insurance policies.

Critical Illness Insurance (Criticare) :- Critical illness insurance, often referred to as "Criticare" or "Criticare Insurance," is a type of insurance that provides coverage for specific, serious illnesses or medical conditions. If the policyholder is diagnosed with one of the covered critical illnesses, such as cancer, heart attack, stroke, or organ failure, the insurance policy pays out a lump sum benefit to help cover medical expenses, ongoing care, or other financial needs during a difficult period. It is designed to provide financial support when a person is facing a severe health crisis.

Allsec Technologies:

Smart payroll :- This is a payroll services project. Provides Fully integration solution with attendance and leave systems. This Web Application is made for Admin (HR).

Employee Self Service Portal (Smart ESS) :- This provides the employee Self Service Portal for 50 Plus Clients. It acts as Both HRMS and Payroll engine. Provides Fully integration solution with attendance and leave systems. This Web Application is made for Employees.

Self Interest Projects:

Todo App :- Todo List App is a kind of app that generally used to maintain our day-to-day tasks or list everything that we must do.

Tech Stacks   : Vite + React , Node Express js , Vercel (for deployment)

URL   : https://todo-react-ic0asiums-rahul-webinsane.vercel.app/

Covid Tracker : - Acts as a portal for the public to keep track of the latest news development about the COVID-19, alongside collecting data for further analysis. All the data are taken from My Govt API.
